Penguin’s Adventure : OSINT- Beginner

Creator: Aleena Mehmood Points: –

Description

This is an OSINT challenge on instagram. Participants are given an Instagram account and have to use their investigation skills to find the hidden flag. The pictures are filled with landmarks, and participants will map them on a map and connect the dots to find the hidden message.

Prompt

Penguin is a self-proclaimed “medieval fantasy fanatic” on a mission to visit and preserve every remaining medieval town before they are modernized.

He has been documenting his travels on Instagram, sharing photos and captions from historic towns across Europe. Each post highlights a real-world landmark.

Investigate Penguin’s Instagram and find the hidden message.

Hints

1. The captions mention real landmarks that can be found on Google Maps.
2. Try plotting the landmarks from each town together rather than individually.
3. Look at the shapes formed by the pinned locations. Sometimes maps tell stories too.

Solution

1. Visit the penguin.1395796 on Instagram.
2. Identify the named landmarks in each post and locate them using a mapping service (google maps)
3. Observe that the plotted locations form a **number shape** for each town.
4. Combine the numbers from all towns in order of appearance to find the final combination.

Flag
