The_Cavern_Watcher : AI - Beginner

Creator: Eddie Points: –

Description

This is a simple AI challenge that was created to mimic components of the game “Suck Up” by incorporating prompt injection with auditory features like recording your audio and getting spoken to by the rhyming gnome by using the groq api.

Github Path: Capture_the_Flame_2026/AI/The_Cavern_Watcher/

Prompt

You’ve chosen to answer the call to a request posted at the guild to gather someone’s lost items from the trickster fairies. But, there’s someone blocking your way to their cave. Find a way to get through!

<Link>

Hints

1. I wonder if there’s something you can do to convince him?
2. Do you notice a pattern in how he speaks to you?
3. Rap Battle...?

Solution

1. When you open up the website, you will be greeted with this:

2. You can record your message, or type it out. Either way, you have to convince the gnome to let you in, and it will be apprehensive at first.
3. All you have to do to get through is rhyme back to the gnome about a paragraph's worth.
